Dear Sir:

SUMMARY OF TELEPHONIC INTERVIEW

Pursuant to MPEP § 713.04, Applicants submit this Summary setting forth a statement of the substance of the telephonic interview on November 23, 2004.

Brief Description of the Nature of any Exhibit Shown or any Demonstration Conducted:

No exhibits were shown and no demonstrations were conducted.

Identification of the Claims Discussed:

All independent claims (1, 13, 15, 35, and 45).

Identification of Specific Prior Art Discussed:

U.S. Patent No. 6,525,830 to Yang ("Yang") and 6,175,856 to Riddle ("Riddle") were discussed.

Serial No. 09/520,435
Submitted: November 24, 2004

Identification of the Principle Proposed Amendments of a Substantive Nature Discussed:

We discussed the potential that Yang may not be a proper prior-art reference based on its filing date. We also discussed that the fact that "coordinate transforms" are not taught nor suggested in the prior art.

Finally, we discussed the presence of the "if" feature recited in various claims (such as claim 10). The Examiner agreed that this feature distinguishes over the prior art. Claims including this feature will be pursued in a Continuation.

The General Thrust of the Principal Arguments of Applicant and the Examiner:

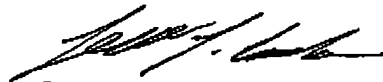

The Examiner indicated that the if each independent claim was amended to recite "coordinate transforms" that such amendments should place the application in condition for allowance.

See above regarding the "if" feature.

General Indication Of Any Other Pertinent Matters Discussed:

The Examiner requested an Amendment that reflected the claim amendments discussed. Applicants have submitted such an Amendment.

Respectfully submitted,

Jesse J. Camacho
